

1. Subject to the following terms, StoneCraft™, a Headwaters Company, warrants¹ to the original purchaser and subsequent owners that for 50 years from the date of sale its StoneCraft manufactured stone or brick veneer (collectively referred to in the remainder of this document as the “product” or the “products”) will not blister, peel, flake, delaminate or crack excessively, as a result of manufacturing defects when used on structures conforming to local building codes and installed in accordance with the Masonry Veneer Manufacturer’s Association written instructions issued before and closest in time to the beginning of the project. StoneCraft will at its option, either: (1) pay the reasonable replacement cost of the defectively manufactured products (2) provide a replacement of the defective product or pay the reasonable cost for replacement product of a similar design; or (3) pay the reasonable cost for repair of the defective product. This limited warranty applies only to products constituting stone or brick veneer manufactured by StoneCraft; it does not apply to any other products or materials, including exterior walls, exterior wall envelopes, backing to which StoneCraft veneer is secured, or water-resistive barriers. The definition of “veneer” contained in the International Building Code is determinative for purposes of establishing what products constitute StoneCraft manufactured stone or brick veneer and are covered by this warranty.
2. This Limited Warranty is not limited to the original purchaser but covers the stone regardless of whether ownership of the building changes. This warranty runs with the transfer of the property to subsequent owners of the property into which the warranted products have been incorporated, but the warranty period as to such subsequent owners is limited to 15 years from the original date of the installation of the warranted product.
3. No warranty whatsoever is made with respect to the manufacture or performance of materials or components of construction not sold or manufactured by StoneCraft, including but not limited to mortar, lath, weather resistant barriers, doors, windows, sealants, flashings, roofing, copings, sheathing and framing. Further, StoneCraft makes no warranties whatsoever with respect to aesthetics, design and engineering of the structure into which StoneCraft products are incorporated, or workmanship involved in the application of any StoneCraft products warranted hereunder. The StoneCraft product is not waterproof. The StoneCraft product should not be used on exterior or interior steps or risers. The StoneCraft product must be incorporated into a wall assembly designed by a building professional that contains adequate mechanisms for water management. StoneCraft has no responsibility for damage caused by moisture intrusion through the building envelope or around any of the building envelope components or by vapor transmission from the inside of the building to a moisture sensitive part of the wall assembly.
4. This warranty covers only manufacturing defects in StoneCraft manufactured stone or brick veneer. StoneCraft manufacturing process has been designed to imitate the random beauty and nature of real stone. As such, stone surfaces may contain small air holes or surface anomalies. These differences add to the overall character of the stone and are not considered manufacturing defects. Changes in the appearance of StoneCraft products caused by normal weathering or efflorescence, which is a natural phenomenon of all concrete products, are also not considered manufacturing defects. Normal weathering is defined as exposure to sunlight and extremes of weather and atmosphere, which will cause any colored surface to fade, chalk, or accumulate dirt or stains.

¹ This warranty is effective for sales after February 20, 2014, and supersedes all previously published versions of this warranty. It shall remain effective until StoneCraft publishes a subsequent superseding version, at which time it shall have no further effect.

 - l. replacement of stone if StoneCraft's product is mixed with other chemicals or materials not approved by StoneCraft in writing,
 - m. any cause beyond StoneCraft's control; and
 - n. any workmanship, aesthetics or other damage or injury not solely and directly caused by a manufacturing defect in StoneCraft's products as covered under this warranty.

7. StoneCraft shall have no further obligation or liability of any kind, other than as stated in this document, and it is further agreed and understood that the price paid for StoneCraft stones is consideration for the limitation of StoneCraft liability hereunder.
8. Warranty coverage is limited to replacement or repair of defective materials as stated above only and does not cover labor to remove or install materials and does not cover the cost of shipping replacement product. The remedies contained herein shall be sole and exclusive.
9. StoneCraft's obligations under this warranty shall only begin if the owner notifies StoneCraft, in writing, within sixty (60) days of actual or constructive notice of the alleged defect. StoneCraft shall be allowed a reasonable period of time and authorization to remove samples, so as to perform any testing StoneCraft deems necessary to investigate and determine the cause of the defect. The Owner shall make temporary repairs in a timely manner to prevent further damage to the structure, contents of the building, and the StoneCraft stones until the cause of the defect is determined and permanent repair recommendations may be made.

10. StoneCraft's obligation to supply replacement stone pursuant to this Warranty shall become null and void if in the sole judgment of StoneCraft, any of the following events shall occur: (i) if after installation of the StoneCraft stones there are any alterations or repairs made to the building that affect any component of the wall assembly of which StoneCraft stones are a part in any way; (ii) if the Owner or any of Owner's tenants fail to use reasonable care in maintaining the StoneCraft stones before and after installation; (iii) if the StoneCraft stones are installed in a manner that causes them to be repeatedly or continuously wet, such as if installed in the direct path of a water sprinkler, pool, jacuzzi, or similar water device; or (iv) if the StoneCraft stones are installed in an area that exposes them to de-icing salts or other harsh chemicals.

12. Any provision of this warranty that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof or affecting the validity of enforceability of such provision in any other jurisdiction.
13. StoneCraft's failure at any time to enforce any of the terms or conditions stated herein shall not be construed to be a waiver of such provisions.
14. This warranty shall be interpreted under the laws of the State of New York.
15. Neither the sales personnel nor other agents of StoneCraft are authorized to make warranties about the merchandise described in this contract.
